

# Pool Mate

## Drop Down

Liquid Flocculant

### EXTRA STRENGTH FORMULA!

**Effectively flocculates organic and inorganic particles suspended in swimming pool water.**

### KEEP OUT OF REACH OF CHILDREN **WARNING**

See first aid and additional precautions on back panel.  
Read all directions carefully before use.

1-2440 L1117PH

1 qt

### GENERAL INFORMATION

This product will effectively flocculate organic and inorganic particles suspended in swimming pool water. The pH must be 7.2 or higher for this product to work.

### DIRECTIONS

Test pool water pH with reliable test kit, adjust pH to 7.2 or greater if necessary.

For highly turbid pool water, dispense approximately 1 quart (32 ounces) of this product per 40,000 gallons of water evenly over the water surface. Allow the pump to run for approximately one hour, then shut off. Allow the floc to settle to the bottom of the pool overnight and then vacuum it out to waste.

This product may be used as part of weekly pool maintenance to prevent the pool water from becoming cloudy or turbid. Pour eight ounces of this product per 40,000 gallons of pool water directly into the skimmer or around the pool perimeter while circulation system is operating.

### FIRST AID - PRACTICAL TREATMENT

**EYE CONTACT:** Immediately flush with large quantities of water for at least 15 minutes. Seek medical attention.

**SKIN CONTACT:** Flush affected area with clear water, wash with warm soapy water. **IF SWALLOWED: DO NOT INDUCE VOMITING.** Obtain medical attention or advice.
