FORMULA**

SHOCK OXIDIZER

**Quickly Oxidizes
Contaminants**

ITEM NO. 1-1702SPA

Potassium Monopersulfate Compound.....100%
Active Oxygen.....4.7%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

MAY BE IRRITATING TO EYES AND SKIN
See first aid statement and other
precautions on back panel.

Net Contents 2 lbs.

This product will oxidize organic contaminants such as ammonia, perspiration and suntan lotion. It will remove chloramines and bromamines which cause "chlorine odor" and enhance the sanitizing effectiveness of chlorine and bromine by acting to reduce the formation of new chloramines and bromamines. It will also increase the clarity of the water and reduce eye burn.

DIRECTIONS FOR USE

Add 1 capful of product per 375 gallons of water every week or more often if bathing load is heavy. Sprinkle product over the spa water surface while the pump is circulating. Allow product to fully circulate in the spa water before using the spa.

This product is neither a sanitizer nor algaecide. For control of microrganisms in pool, spa or hot tub water, or algae control, use an EPA registered product.

PRECAUTIONARY STATEMENTS

Hazardous to humans and domestic animals. **DANGER:** Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear eye protection.

PHYSICAL AND CHEMICAL HAZARDS:

STRONG OXIDIZING AGENT. Mix only with water, using clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use or contamination with moisture, organic matter or other chemicals, may cause a violent reaction leading to fire or contamination or decomposition. Do not reseal the package. If possible, isolate the package in open air or well ventilated area. Flood with large amounts of water.

FIRST AID

EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes. Get prompt medical attention.

IF SWALLOWED: DO NOT INDUCE VOMITING.
Drink plenty of water. Call a physician immediately.

IF ON SKIN: Brush off excessive chemical and wash with soap and water. If irritation persists, get medical attention.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Keep product in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate the package if possible, and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty package. Wrap the empty package and place in trash collection.
